Figure 1 illustrates the syntax of the MCD (Map Coding Dictionary) for a map of the United States. The diagram shows various map features and their corresponding MCD symbols, organized into two main columns. The left column lists map features: Highway, Secondary Road, Jct./Tol./Passkey/Ferry, and Railroad. The right column lists geographical features: Stream/Shoreline, Intermittent Stream, River / Lake, and Glacier. Below these lists are two boxes: Inset and Out Area. At the bottom, a legend explains the symbols: a horizontal line with a vertical tick for Highway, a horizontal line with two vertical ticks for Secondary Road, a horizontal line with a vertical tick and a small circle for Jct./Tol./Passkey/Ferry, and a horizontal line with a vertical tick and a small square for Railroad. The legend also explains the symbols for Stream/Shoreline (a wavy line), Intermittent Stream (a dashed wavy line), River / Lake (a blue wavy line), and Glacier (a blue wavy line with a small circle). The legend further explains the symbols for Inset (a box with a dashed border) and Out Area (a box with a solid border).

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.
